UNIVERSITY OF
LUXEMBOURG

University of Luxembourg

Our Master degree programmes

At the University of Luxembourg, we offer more than 40 Master degree programmes across a wide range of disciplines. We provide extensive support services to help our students make the most of their studies and set them on a future career path.

This brochure contains extensive information to help you find the right programme, explore our university and get your life as a student in Luxembourg off to a good start.

**We look forward to
welcoming you to the
University of Luxembourg.**

uni.lu/students

The University of Luxembourg is a European research-oriented university with a strong international and multilingual character. Founded in 2003, the university currently counts over 6,423 students. Members of the university community come from all over the world.

Admission criteria:

Master degree programmes are open to students who hold a Bachelor degree or equivalent (180 ECTS) in a related field.

Programme duration: 4 semesters / 120 ECTS

Start of the programmes: mid-September

Admission fees for national and international students: €200 / semester

For certain degree programmes, additional admission criteria and/or fees may apply. For further information about all our programmes, admission criteria and fees, please refer to the relevant study programme pages on our website.

uni.lu/studies/masters

Biology and Medicine

Master in Integrated Systems Biology

4 semesters | 120 ECTS

Combination of life sciences and computational science

Use of the most modern technologies in biosciences

Early involvement in research projects

TEACHING LANGUAGE: English

This programme enables students to acquire a deeper knowledge of biosciences, taking new technologies into account. This involves handling large amounts of data and thus bioinformatics and network analysis are essential elements in this modern education in biosciences.

CAREERS: employment opportunities in the biotech and pharmaceutical industries, prepares students for a career as a researcher in biological, biomedical or pharmaceutical laboratories, as a data scientist with a focus on biomedical applications, as a secondary school teacher, or for further studies at PhD level.

misb.uni.lu
misb@uni.lu

Biology and Medicine

International Master of Science in Biomedicine

in collaboration with:

4 semesters | 120 ECTS

Tri-national diploma with the University of Strasbourg and the Johannes Gutenberg University Mainz

Multidisciplinary and multicultural approach

Students use state-of-the-art experimental and computational facilities

TEACHING LANGUAGE: English

This joint international programme provides students with a strong multidisciplinary education in the fields of cardiovascular and metabolic diseases, neurosciences and immunology. They will have the opportunity to experience a multidisciplinary research training as well as a multicultural approach of the scientific communities across the borders.

CAREERS: managers, teachers or researchers in the pharmaceutical industry, health agencies, universities and hospitals at international level or further studies at PhD level.

mibiomed.uni.lu
mibiomed@uni.lu

Biology and Medicine

European Master of Small Animal Veterinary Medicine

in collaboration with:

4 semesters | 120 ECTS

Combination of coursework and written modules

Acquisition of high-level specialist qualifications

Internationally renowned professors

TEACHING LANGUAGES: English

This programme provides post-graduate training courses for veterinarians wishing to upgrade their knowledge in various areas of clinical veterinary medicine.

CAREERS: successful completion of the programme certifies that a veterinarian has acquired an advanced level of knowledge in small animal medicine.

esavs-master.org
emsavm@uni.lu

Biology and Medicine

Master in Production Animal Health

in collaboration with:

4 semesters | 120 ECTS

Collaboration with the World Veterinary Education in Production Animal Health (WVEPAH)

Residential courses and distance learning

Case-oriented and problem-solving approach

TEACHING LANGUAGES: English

The programme enables students to acquire a deep understanding of production, management, nutrition, health, diagnostics, prevention, and treatment of diseases in today's poultry area ; to solve most of the problems in the specific areas of production animal health ; and to improve poultry health, welfare, as well as productivity and profitability.

CAREERS: poultry senior executives

mpah.uni.lu
mpah@uni.lu

Computer Science

Master in Information and Computer Sciences

4 semesters | 120 ECTS

Flexible specialisation options

Early involvement in research projects

International cooperation agreements with universities and industries

TEACHING LANGUAGE: English

This programme enables students to acquire deeper knowledge in computer science by understanding its abstract and interdisciplinary foundations, focusing on problem-solving and developing lifelong learning skills. Students can specialise in the following areas: adaptive computing, communication systems, information security, intelligent systems and reliable software systems in non-technical areas of existing companies.

CAREERS: Luxembourg is a major financial centre with a growing need for highly qualified IT staff. Employment opportunities include the public sector, local industries and public research institutes. The programme also prepares students for further studies at PhD level.

mics.uni.lu
mics@uni.lu

Computer Science

Master in Information System Security Management

Master en Management de la Sécurité des Systèmes d'Information

in collaboration with:

4 semesters | 60 ECTS

Multidisciplinary approach promoting knowledge sharing and exchange of experiences

Participation in the Information Security Education Day (ISED)

Programme supported by two professional associations: CLUSIL and CPSI

TEACHING LANGUAGE: English

This programme allows professionals to further develop their knowledge and skills to analyse, interpret and provide relevant solutions in the field of information security.

CAREERS: prepares students for the position of Chief Information Security Officer (CISO) in all business sectors.

missm.uni.lu
missm@uni.lu

Computer Science

Master en Développement et Validation du Logiciel

en collaboration avec :

4 semestres | 120 ECTS

**Double diplôme de l'Université du Luxembourg
et de l'Université de Franche Comté**

Formation exclusivement à distance et en ligne

**Equipes de recherche au sein des deux
universités internationalement reconnues**

**Complémentarité des apports des deux
universités: automatisation des tests, test
fonctionnel, test non-fonctionnel**

Stage en entreprise

LANGUE D'ENSEIGNEMENT : français

Dispensé à distance et entièrement en ligne, ce programme offre une formation innovante de haut niveau dans le domaine du test et de la validation des logiciels. Il vise à former des cadres de l'informatique capables d'appréhender la conception et le développement de logiciels avec différents paradigmes de programmation, et de maîtriser les compétences liées à leur validation, ce qui permet d'établir un niveau de confiance dans les éléments produits.

DÉBOUCHÉS : Analyste-programmeur informatique, Analyste-testeur informatique, Ingénieur d'étude et développement informatique, Ingénieur de test, Architecte d'environnement de test, Ingénieur d'intégration applicative, Ingénieur support technique ou fonctionnel, Assistant chef de projet informatique

mdvl.uni.lu
mdvl@uni.lu

Computer Science

—
Master in Technopreneurship

in collaboration with:

4 semesters | 60 ECTS

Technopreneurship: mastering Smart ICT, standardisation and digital trust for enabling next generation of ICT solutions

Innovative programme in Smart ICT

Combination of standardisation and digital trust

Internship

TEACHING LANGUAGE: English

This Master is extremely innovative. On one hand, it provides students with a base of knowledge on topics reflecting current issues and those at the cutting edge of smart ICT, and on the other hand, it serves as a catalyst for growth in the ICT industry by offering practical examples and case studies illustrating the use of technical standardisation as a tool to give common technical language, build trust, and foster effectiveness in smart ICT.

CAREERS: Technology Officer, Consultant emerging technologies, Digital strategy consultant, Smart ICT consultant, Innovation manager, Standards manager, Project manager, Head of innovation, Head of digital strategy and Technopreneur.

mtech.uni.lu
mtech@uni.lu

Computer Science

—
Interdisciplinary Space Master

in collaboration with:

4 semesters | 120 ECTS

Interdisciplinary training

Problem-based learning approach

Support from the Luxembourg Space Agency

Strong links with national stakeholders including industry

TEACHING LANGUAGE: English

This programme provides solid knowledge in all aspects of the space value chain, along with space engineering expertise. This programme is an innovative balance of business and technology teaching and learning. From rocket science to the management of space businesses, the students will acquire various skills required by the Luxembourg Space industry sector and develop the entrepreneurial mindset required to be successful in the emerging future space industry.

CAREERS: employment opportunities in the space sector or further research at PhD level.

ism.uni.lu
ism@uni.lu

Engineering

Master en Développement Durable – Filière Énergie et Environnement

in collaboration with:

4 semesters | 120 ECTS

Double degree between the University of Luxembourg and the University of Liège

Combination of technical courses, natural sciences courses and humanities-related courses

Multidisciplinary and international approach

TEACHING LANGUAGES: French, English

This programme provides students with the skills they need to apply an environmental approach to energy issues and play a crucial role in the growing field of sustainable development. This programme is a dual degree programme between the University of Luxembourg and the University of Liège (Master en Sciences et Gestion de l'Environnement, à finalité énergies renouvelables et bâtiments durables).

CAREERS: prepares students for positions like energy and environment specialists in large companies, civil servants and managers in public administrations specialising in energy and environmental issues, researchers or teachers and energy and environment consultants.

mdd.uni.lu
mdd@uni.lu

Engineering

Master of Science in Civil Engineering – Megastructure Engineering with Sustainable Resources

4 semesters | 120 ECTS

**Focus on complex projects and sustainability
Collaboration with construction companies and administrations**

Possibility to spend a semester abroad at a partner university in Paris, Nancy, Metz or Brussels

TEACHING LANGUAGE: English

This programme enables students to acquire deeper knowledge in civil engineering with a specific focus on planning and constructing megastructures while using resources sustainably. Sustainability is increasingly important and the well-trained modern civil engineer must be able to judge and optimise civil structures and buildings while taking into account shortages in construction materials and energy resources. This dual focus on megastructures and sustainability sets us apart from other masters of civil engineering.

CAREERS: prepares students for civil engineer or consultant positions in the construction industry or public sector, or for further studies at PhD level.

msce.uni.lu
msce@uni.lu

Engineering

–
**Master en Sciences
de l'Ingénieur –
Efficacité Énergétique et
Économique**

in collaboration with:

4 semesters | 120 ECTS

**International approach to energy issues
Collaboration with the University of Lorraine,
the European Investment Bank (EIB), Bosch,
Buderus, DGNB, Paul Wurth, Schweizer
Steimen AG**

**Possibility to get a double diploma with
Hochschule für Technik und Wirtschaft des
Saarlandes (HTW Saar) or Umwelt-Campus
Birkenfeld (UCB)**

**Compulsory third semester abroad at
Université de Lorraine (Nancy), HTW Saar
(Saarbrücken) or UCB (Birkenfeld). Other
individual solutions are still possible.**

TEACHING LANGUAGES: English, French

This programme enables students to acquire deeper knowledge in thermodynamics,

mathematics and modern technologies needed to assess energy-related issues.

The course combines technical elements with units from economical sciences and business administration in the aim of providing the full range of skills required for approaching technically and commercially energy-related problems.

CAREERS: prepares students for managerial positions dealing with energy and environmental issues in the private and public sector, research and teaching, energy and environmental consultancy, or further studies at PhD level.

mee.uni.lu
mee@uni.lu

Engineering

Master of Science in Engineering – Sustainable Product Creation

4 semesters | 120 ECTS

Combination of mechanical engineering and mechatronic issues within sustainable product creation

Focus on lean and sustainable use of all resources

Insights into electrical engineering and computer networking to integrate industry 4.0 and IoT skills

TEACHING LANGUAGE: English

This programme enables students to acquire a comprehensive, deep knowledge of all steps of the product creation process, from market segment specification, product planning, product design and manufacturing to product usage, service and recycling. The courses cover mechanical and electrical aspects. This programme perfectly balances academic education with industrial applicability of cutting-edge content

CAREERS: prepares students for engineer or consultant positions in industry, or further studies at PhD level.

msp.uni.lu
msp@uni.lu

Mathematics

Master en Enseignement Secondaire – Mathématiques

4 semesters | 120 ECTS

Classes in applied didactics

Classes in educational sciences and educational sociology and psychology

6-week internship in a secondary school

Compatibility with the criteria for the projected reduction to 1 year of the Luxembourgish post-graduate education

TEACHING LANGUAGES:

French, English, German

This programme prepares students to become highly qualified teaching professionals in the Luxembourg school system. Students are enabled to deepen their knowledge in the respective fields and develop the skills needed for teaching in classroom settings.

CAREERS: prepares students for a career in teaching in secondary schools in Luxembourg, or for further studies at PhD level.

mse-math.uni.lu
mse.math@uni.lu

Mathematics

Master in Mathematics

4 semesters | 120 ECTS

Three career-driven directions

Curricula designed in cooperation with representatives from industry and banks

Teaching team committed to highest pedagogical quality

Hands-on Luxembourg-based training and internships with selected partners

TEACHING LANGUAGE: English

This programme is of a high standard, the curriculum is flexible, offering students a complete education as mathematicians. This allows them to apply for any mathematics-related position. Furthermore, it offers an extensive specialisation in one of three career-driven directions: financial mathematics, general mathematics and industrial mathematics.

Students can consolidate their knowledge of modern mathematics in the first year and can deepen their understanding through optional courses. These let them familiarise with the three options available in the second year, which means they are in a position to make an informed choice.

CAREERS: Mathematicians are needed in all institutions and companies, including public sector and higher education institutions, banks, industries, etc.

mmath.uni.lu
mmath@uni.lu

Physics

Master of Science in Physics

4 semesters | 120 ECTS

Full scope from soft matter to solid-state physics

Collaboration with industry

Involvement in current research activities (two semesters of research)

Possibility to spend the second year either in Germany or France (bi-national Master programme)

Strong links with the Luxembourg Institute of Science and Technology (LIST)

TEACHING LANGUAGE: English

This programme enables students to acquire a solid and broad education in condensed-matter and materials physics. The goal is to explain and predict the physical properties of materials, e.g., semiconductors, magnetic materials and liquid crystals, based on their microscopic constituents. While the first year of this programme consists of lectures, exercises and laboratory classes, the complete second year is devoted to conducting research in one of our experimental/theoretical groups.

CAREERS: Employment opportunities in all industrial sectors including the electronics, automotive, aerospace and biomedical industries, or further studies at PhD level.

mphy.uni.lu
mphy@uni.lu

Physics

Master Saar-Lor-Lux-Gre in Physics

in collaboration with:

UNIVERSITÄT
DES
SAARLANDES

UNIVERSITÉ
DE LORRAINE

Université
Grenoble Alpes

4 semesters | 120 ECTS

**Double diploma from University of Luxembourg
and Lorraine, Saarbrücken or Grenoble Alpes**

**Focus on condensed matter physics and
materials physics at the University of
Luxembourg**

**Free language courses are a part of the
programme**

Multicultural and multilingual aspects

TEACHING LANGUAGE: English/French or
English/German

This programme is developed in partnership with the Universities of Luxembourg, Lorraine, Saarbrücken and Grenoble Alpes. It enables students to acquire a solid and broad education in physics in a multicultural and multilingual context. Students do their first year of the Master in one of the 4 universities and the second year abroad at one of the three partner universities.

CAREERS: Positions in all industrial sectors (electronics, automotive, aerospace, banking, biomedical, etc.) or further studies at PhD level.

Economics and Management

Master in Accounting and Audit

4 semesters | 120 ECTS

Includes "Formation complémentaire des candidats réviseurs d'entreprises"

TEACHING LANGUAGE: English

This programme teaches in-depth knowledge of all specialist areas relevant to accounting and audit practice, combining scientific and theoretical course content with practical experience and expertise. Courses are divided into blocks covering foundational theoretical issues and frameworks as well as technical and practical aspects of accounting and audit. Taught in small groups and an interactive setting, the programme promotes independent problem-solving skills through evaluation, analysis and application of knowledge.

CAREERS: employment opportunities in finance, accounting, or the financial management of companies. Auditor in other EU member states, research in the field of accounting and audit.

maa.uni.lu
fdef-maa@uni.lu

Economics and Management

Master in Entrepreneurship and Innovation

4 semesters | 120 ECTS

Fees: €5,000 for first year; €3,000 for second year
In partnership with the Luxembourg Chamber of Commerce

TEACHING LANGUAGE: English

This programme provides students with the knowledge and skills required to generate ideas and entrepreneurial solutions. The programme balances theory and practical know-how, drawing on concepts and knowledge from different disciplines, and integrating these concepts with the experience of daily business practice. The programme is based on a two-year structure and is divided into blocks, designed to cover foundational theoretical issues and frameworks as well as the technical and practical aspects of starting a new venture, whether a social business or corporate venture.

CAREERS: employment opportunities in areas of innovation management/small business management/start-ups/entrepreneurial contexts or corporate contexts and the public sector.

mei.uni.lu
fdef-mei@uni.lu

Economics and Management

Master in Logistics and Supply Chain Management

2 semesters | 60 ECTS

Fees: €24,000 for full programme (scholarships available)

Includes study period at MIT in Boston, USA

TEACHING LANGUAGE: English

This programme is offered in partnership with the Massachusetts Institute of Technology (MIT) in Boston, USA. Students acquire fundamental knowledge in the field of logistics and supply chain management. The programme includes a three-week study period at MIT. Throughout the academic year, students work on a Master thesis in collaboration with an industry partner company. In addition to in-class activities, students also take part in company visits to further bridge the theory-practice divide.

CAREERS: prepares students for the operational and strategic role that logistics and supply chain management play in modern companies. Graduates become supply chain champions, ready to confront the challenges of a changing business world through a global approach to and analysis of supply chain problems.

lscm.uni.lu
lcl-master@uni.lu

Finance Economics and Management

MSc in Finance and Economics

4 semesters | 120 ECTS

Choose between five specialised tracks in the second year

TEACHING LANGUAGE: English, French optional

This MSc offers a foundational first year, covering topics from statistics and econometrics to corporate finance, macro- and microeconomics and an introduction to the Luxembourg financial centre. In their second year, students can choose one of five specialised tracks: Banking, Investment Management, Risk Management and Financial Economics, and Sustainable Finance. Teaching is supported by industry professionals, in particular in trending and emerging topics in the financial sector, such as FinTech or sustainable finance. In their final semester, students can choose to complete either an internship and business case report, or a Master thesis.

CAREERS: employment opportunities in banking, finance and insurance sectors, financial administrations, national and European institutions. Luxembourg's financial centre offers a dynamic and international job market for graduates.

mfe.uni.lu
fdef-mfe@uni.lu

Finance **Economics and Management**

MSc in Quantitative Economics and Finance

2 semesters | 60 ECTS

TEACHING LANGUAGE: English

This MSc is an advanced Master degree programme that exposes highly talented students to fundamental research methods in both fields. The programme prepares for careers in academia, public institutions and upscale jobs in the industry. For its best graduates, it is a premier route for admission to the University of Luxembourg's Doctoral School in Economics and Finance. The programme meets the highest international standards and compares to the first year of doctoral programmes at top universities in the US or the UK. In the second semester, students have to write a Master thesis. Close ties to the University's economics and finance research departments ensure individual supervision by faculty members. Students need to have completed 240 ECTS (usually an undergraduate degree and one-year Master programme) to be eligible for this programme.

CAREERS: academia (PhD studies), public institutions (e.g. central banks, research institutions, statistical services, European institutions, national administrations) and upscale jobs in the industry (e.g. private banks or insurance companies).

mqef.uni.lu
fdef-mqef@uni.lu

Finance

Master in Wealth Management

4 semesters | 120 ECTS

TEACHING LANGUAGE: English

This programme is designed to educate and train future wealth managers, combining traditional finance subjects with person-, legal- and tax-centric subjects such as client relationship management, estate planning, ethics and international taxation.

This programme was developed together with the Luxembourg financial centre and prepares students for the job market in different wealth management contexts. In their second year, students either do an internship (incl. a business case project report) or write a Master thesis. This programme has a strong professional orientation with teaching supported by industry professionals.

CAREERS: wealth management is a line of business in banks, trusts, insurance companies, foundations and family offices, offering career opportunities, for example, in portfolio management, investment advisory, compliance, relationships management, estate planning, tax, legal, product management and others.

mwm.uni.lu
fdef-mwm@uni.lu

Law

Master in European Banking and Financial Law (LL.M.)

2 semesters | 60 ECTS

Option to specialise in collective investment schemes (CIS) or investment funds law

Optional internship of up to twelve weeks

TEACHING LANGUAGES: English, French

This programme is one of the first programmes in this field offered in continental Europe. The investment funds law option in the second semester is a legal qualification unique in Europe. This programme focuses on the study of three essential pillars – banking law, securities and capital markets law and investment funds or CIS law – in the framework of European Union, Luxembourg and comparative law. The programme combines the acquisition of theoretical concepts and their practical application through interactive teaching and case-based learning.

CAREERS: legal careers in the banking and financial sector, the insurance sector or the fund industry. Employment in law firms, European banking and financial institutions or national administrations, or further studies at PhD level.

llm-banking.uni.lu
llm-banking@uni.lu

Law

Master in European Economic and Financial Criminal Law (LL.M.)

2 semesters | 60 ECTS

Mandatory internship of at least eight weeks

TEACHING LANGUAGES: English, French

This programme explores the fast-growing field of European criminal law with special emphasis on economic and financial criminal law. The programme consists of six modules dedicated to key aspects of European criminal law, including regulation and enforcement within the EU, European criminal law and criminal procedure, corporate criminal law and compliance, judicial cooperation and EU law enforcement agencies. In the second semester, students write a Master thesis and participate in an internship to further expand their skills by applying the acquired knowledge to real-life situations.

CAREERS: in European economic and financial criminal law in Luxembourg or abroad, for example as a compliance expert, white-collar crime lawyer or EU official, or further studies at PhD level.

llm-criminal.uni.lu
llm-criminal@uni.lu

Law

Master in European and International Tax Law (LL.M.)

2 semesters | 60 ECTS

Choice between Master thesis and practical case study

Opportunity to apply for ATOZ Foundation Scholarship

TEACHING LANGUAGES: English, French

This programme teaches students to master the general principles of tax law in order to be able to work with new or unfamiliar legal rules and to successfully recognise issues arising in new taxing jurisdictions. Students will learn to make use of the extensive Luxembourg tax treaty network and gain first-hand exposure to real tax issues and the jurisprudence of the Court of Justice of the European Union. This programme puts a particular emphasis on the interaction of tax treaty law with domestic tax law, as well as the effects of primary and secondary EU law on domestic tax rules.

CAREERS: employment opportunities in the legal, tax and advisory sector, financial or law firms, national administrations, European and international institutions or further studies at PhD level.

llm-tax.uni.lu
llm-tax@uni.lu

Law

Master in European Private Law (LL.M.)

2 semesters | 60 ECTS

Mandatory internship of at least eight weeks
Opportunity to participate in the "Clinique du Droit"

TEACHING LANGUAGES: English, French

This programme teaches students about European integration and the interaction between EU law and national legal systems as well as discussing areas of private law that have been deeply Europeanised (company, labour, intellectual property, banking and financial law). The programme also explores legal areas where the influence of European law is indirect but vivid (contract and tort law, law of family and persons, procedural law). The programme mixes theoretical and practical approaches, hosting monthly workshops, the clinical teaching programme "Clinique du Droit" and a mandatory internship.

CAREERS: employment opportunities in national administrations, the European institutions, law firms, the judiciary, banks and financial institutions, or as notaries. Further studies at PhD level.

llm-private-law.uni.lu
llm-private-law@uni.lu

Law

Master in Space, Communication and Media Law (LL.M.)

2 semesters | 60 ECTS

**Choice between internship of at least 8 weeks
or extended Master thesis**

TEACHING LANGUAGES: English, French

This programme combines a range of courses on space law, international and European satellite communication law, media law, electronic communications and e-commerce law, intellectual property law as well as data protection law. It covers these areas on international, European and national level. Over the course of the programme, students acquire complete expertise in the regulatory aspects of space, communication, ICT and media law within an exciting and developing field.

CAREERS: employment opportunities in national regulatory agencies, ministries for telecommunication and media, private companies active in the media and telecommunication sector, law firms, international organisations dealing with space communication, development and aid institutions, or further studies at PhD level.

**llm-space-media.uni.lu
llm-space-media@uni.lu**

Law

Master in European Union Law and Litigation (LL.M.)

2 semesters | 60 ECTS

Mandatory internship of at least eight weeks

TEACHING LANGUAGES: English, French

This programme is designed to equip students with in-depth knowledge and experience of substantive, institutional and procedural law of the European Union. Based on a method of active learning, the programme covers a wide spectrum of EU law, European constitutional, administrative and regulatory law, and specific matters of EU law, such as employment, immigration or external relations. The programme also covers procedural rules and remedies as well as the role of national and international judges in relation to the Court of Justice of the European Union.

CAREERS: employment opportunities at the European institutions, national administrations, law firms and the private sector, or further studies at PhD level.

**llm-contentieux.uni.lu
llm-contentieux@uni.lu**

Students applying into the six LL.M. specialisations need to have completed studies amounting to 240 ECTS (usually a bachelor and one-year Master degree). Students with 180 ECTS (a Bachelor or equivalent undergraduate degree) can apply into the foundational first year of all LL.M. programmes, the Master in European Law (M1).

Behavioural and Cognitive Sciences

–
**Master en
Gérontologie**

8 semesters | 120 ECTS

**A part-time lifelong learning study programme
A 2-week internship**

**A Master thesis is required to complete the
programme**

TEACHING LANGUAGES: French, German

This programme is designed for professionals working or intending to work in the senior sector who wish to further develop their skills. Students deepen their knowledge and develop greater expertise in geriatrics, geropsychology and social gerontology. The courses cover topics such as health management, quality assurance, palliative care and the demographic, legal, historical, socio-political, cultural and ethical aspects of human ageing. Students are also trained in research, assessment and evaluation methods and given the soft skills they need to successfully deal with the increasing demands of their workplace.

CAREERS: employment opportunities in senior positions in retirement and nursing homes, in the administrative and care sectors, in institutions providing secondary and tertiary level teaching on aging and senior citizens, at community level and at other levels of social governance or as a specialist and consultant in health care provision and preventive care.

mpg.uni.lu

Behavioural and Cognitive Sciences

–
**MSc in Psychology:
Psychological Intervention**

4 semesters | 120 ECTS

**A research-based study programme on applied
aspects of psychological Intervention**

**Courses are carried out in close collaboration
with nationally and internationally renowned
scholars**

A mandatory 12-week internship

TEACHING LANGUAGES: German, English

This programme is specially designed for students who wish to deepen the knowledge acquired during a Bachelor programme in Psychology. The programme includes advanced theoretical, methodological and applied aspects of psychological intervention research as well as practical on-the-job training. Students are trained in the fields of clinical psychology, health, social and developmental psychology. The flexible programme structure allows students to choose between different courses leading to a more individual profile.

CAREERS: employment opportunities in psychological intervention and research, especially in the field of clinical and educational psychology, or further studies at PhD level.

mpi.uni.lu

Behavioural and Cognitive Sciences

Master in Psychotherapy

6 semesters | 120 ECTS

A part-time lifelong learning study programme

Fees: €2,600/semester

Admission requirements include 500 hours of supervised practice in a clinical setting

TEACHING LANGUAGES:

English, French, German

This programme is designed for psychologists and physicians who wish to undertake a special training in psychotherapy that covers both the basic and applied aspects of psychotherapy research as well as practical on-the-job training. Students develop professional skills in psychological assessment, prevention and intervention. The programme is strongly research-focused with the main aim to teach evidence-based methods of psychotherapy. The programme is in full agreement with the guidelines of the European Federation of Psychological Associations (EFPA).

CAREERS: qualification to work as a certified psychotherapist.

map.uni.lu

Education and Social Work

Master en Médiation

8 semesters | 120 ECTS

A part-time lifelong learning study programme

Taught in cooperation with Lyon 2 University and the University of Murcia

A Master thesis is required to complete the programme

TEACHING LANGUAGE: French

This programme is specially designed for professionals who wish to develop their skills in mediation and conflict resolution. The first part covers general theoretical and practical aspects of mediation and conflict resolution, while in the second part students can specialise in one of the options offered by the three partner universities. At the University of Luxembourg, students are prepared for a career in a management position in a mediation or social intervention agency. Students acquire the ability to set up, manage and monitor their own social intervention projects.

CAREERS: employment opportunities in positions requiring mediation and conflict resolution skills

Education and Social Work

MSc in Psychology: Evaluation and Assessment

4 semesters | 120 ECTS

A strong focus on statistics

**Development of design tests for data collection,
utilising quantitative and qualitative research**

**A mandatory 10-week internship in a
counselling setting**

TEACHING LANGUAGES: French, English

This programme provides key qualifications specific to the assessment field. Students develop the statistical and methodological knowledge and expertise required to process and interpret data. They acquire advanced skills for implementing and applying assessment tools in educational settings and for developing cognitive, professional or personal profiles. Students are trained to become high-quality experts in the areas of psychometrics, statistics and measurement and multivariate analysis methods.

CAREERS: employment opportunities in HR departments, assessment centres, initial and lifelong training centres, or further studies at PhD level.

mapea.uni.lu

Geography and Spatial Planning

Master in Architecture

4 semesters | 120 ECTS

**A profiled programme in architecture, European
urbanisation and globalisation**

**Design studios on architectural
and urban design**

**A 2-month internship in an architectural
practice**

TEACHING LANGUAGE: English

This programme focuses on architectural design, as a creative discipline and a major agent in the production of space. Students explore how the historical, social, political and environmental effects of urbanisation and globalisation are shaping architecture. The courses cover a broad range of topics including the economic and ecological aspects of globalisation, European urban and spatial planning, urban landscape design within Europe and the respective regulatory frameworks, and the history and theory of cultural and visual studies, as well as research methods on architecture and urbanism.

CAREERS: employment opportunities in the private sector or administrative bodies, or further studies at PhD level.

architecture.uni.lu

Master in Border Studies

in collaboration with:

4 semesters | 120 ECTS

Multilingual programme taught at the University of Luxembourg, University of Lorraine, (France), Saarland University (Germany), University of Kaiserslautern (Germany)

A mandatory internship

A joint diploma issued by all four partner universities

TEACHING LANGUAGES:

German, French, English

This programme addresses the economic, political, social and cultural issues of borders and border regions in Europe and beyond and provides students with the analytical skills required to understand the challenges of cross-border cooperation. Students acquire the needed skills to play a crucial part in discussions about national and European identities, worldwide mobilities, migration and cultural diversity issues. Students can choose either the spatial studies track or the language and cultural studies track.

CAREERS: employment opportunities in cross-border and intercultural working settings, cultural agencies or institutions, media relations, public administrations, cross-border cultural management and regional marketing or further studies at PhD level.

mbs.uni.lu
ma_border_studies@uni.lu

Geography and Spatial Planning

Master in Geography and Spatial Planning

4 semesters | 120 ECTS

Advanced approaches in geographical analysis and spatial planning

Unique combination of quantitative and qualitative research methods

A variety of learning activities including lectures, seminars, workshops and urban field work in an international environment

TEACHING LANGUAGE: English

This programme trains experts to understand the complexity of the development of cities and regions as a reflection of global changes and local dynamics. The courses emphasise the need and opportunities for sustainable planning strategies and territorial development, especially in Europe. The programme provides a unique combination of academic courses and practical work. Students learn to identify geography and planning problems at different geographical scales and relate them to conceptual and theoretical models. They acquire the ability to master and combine geographic information systems, cartography and statistical tools as well as qualitative research and governance analysis methods.

CAREERS: employment opportunities in private and public spatial planning bodies, mobility and transport consultancies, urban and regional development agencies, European and cross-border institutions, universities and research centres, or further studies at PhD level.

spatial.uni.lu

Humanities

Master en Enseignement Secondaire

4 semesters | 120 ECTS

Four tracks: German Studies, Romance Studies, Luxembourgish Studies, Mathematics (organised by the Faculty of Science, Technology and Medicine)

A focus on issues specific to the Luxembourg school system such as multilingualism, multiculturalism and integration

Two practical one-week training sessions

TEACHING LANGUAGES:

French, German, English, Luxembourgish

This programme is designed to train highly qualified teaching professionals for the Luxembourg school system. For the literature and language tracks, students are required to hold a Bachelor's degree in German Studies, Romance Studies, Philology or Cultural Studies. They deepen their knowledge in the respective fields and develop the pedagogical skills needed for teaching in classroom settings. The programme provides students with the necessary skills to understand and face the challenges of teaching and learning in a multicultural and multilingual school system.

CAREERS: prepares students for a teaching career in secondary schools in Luxembourg, or further studies at PhD level.

mse.uni.lu

Humanities

Master en Études Franco-Allemandes: Communication et Coopération Transfrontalières

in collaboration with:

4 semesters | 120 ECTS

Courses are taught at the University of Lorraine, Saarland University and the University of Luxembourg

A mandatory internship in a cross-border institution

Intensive French and German language courses

A curriculum certified by the Franco-German University

TEACHING LANGUAGES: French, German

This programme trains experts in intercultural communication providing them with a deep understanding of the France-Germany-Luxembourg relationship. Courses cover a broad range of subjects including the politics, economics and culture of France and Germany, Franco-German relations and European integration, intercultural communication, information and communication sciences, and cultural and media analysis. Students spend the first year at the University of Lorraine and the second at Saarland University. During the second year,

students must choose three courses directly linked to their field of study (two in semester 3 and one in semester 4) from a large range of Master courses offered at the University of Luxembourg.

CAREERS: employment opportunities in journalism, public relations, marketing in cultural institutions in the Saar-Lor-Lux region or European institutions, or further studies at PhD level.

mpcct.uni.lu

Humanities

Master in European Contemporary History

4 semesters | 120 ECTS

**A strong focus on digital history
Conferences and guest lecturers by international experts and European key players
Specialisation in “European history in the long term” or “Social and political history of contemporary Europe”**

TEACHING LANGUAGES: English, French

This programme is designed to provide students with high-level education in European history, covering topics such as the political and socio-economic aspects of the European integration process, the construction of social and cultural identity throughout Europe, European migration and Europe's relations with other global regions. Students learn to use digital history tools and methodologies and transfer and adapt traditional narrative techniques. They develop their own ways of telling (hi)stories, for both academic and non-academic audiences.

CAREERS: employment opportunities in European political and cultural institutions, media and cultural management, diplomatic services, senior civil service, archives and libraries or further studies at PhD level.

mahec.uni.lu

Humanities

Master in Learning and Communication in Multilingual and Multicultural Contexts

4 semesters | 120 ECTS

**Multilingual classes in English, French and German with both academic and practical orientation
Master classes and an international symposium with renowned international experts
The option of internships in European Institutions, companies and NGOs**

TEACHING LANGUAGES: English, French and German, some courses are multilingual

This multilingual and international programme focuses on the challenges and opportunities of multilingualism and multiculturalism in education, the workplace and new media. Students develop in-depth knowledge of scientific research in these fields and work with a range of methodological tools used for conducting independent research projects that are relevant to societal issues. The programme includes the possibility of a work placement, a symposium abroad and lectures given by internationally renowned external

Master in Modern and Contemporary European Philosophy

4 semesters | 120 ECTS

A high-level academic education in modern and contemporary European philosophy

A strong research focus

Key insights into historical developments and systematic problems of modern and contemporary European philosophy

TEACHING LANGUAGE: English

experts. Students develop their skills in the three languages used during the programme. Courses are taught Thursdays to Saturdays to accommodate part-time students.

CAREERS: employment opportunities in education, new media analysis, diversity management, cultural mediation, communication, human resources, translation and journalism, or further studies at PhD level.

multi-learn.uni.lu

This programme focuses on European philosophy from Descartes to the present day and provides an in-depth study of European philosophy beginning with classical rationalism and empiricism, moving on to Kant and German idealism and concluding with 20th century and contemporary philosophy. Credited language courses give students the opportunity to improve their French and German language skills. Students may choose from a wide range of interdisciplinary course options covering the fields of history, politics and literature.

CAREERS: employment opportunities in cultural and political institutions, journalism and publishing, or further studies at PhD level.

mapr.uni.lu

Humanities

Master Theaterwissenschaft und Interkulturalität

4 semesters | 120 ECTS

A programme jointly organised by the University of Luxembourg and the University of Trier

A strong cooperation with national theatrical institutions

An intensive practical orientation

TEACHING LANGUAGES: German, some courses might be taught in French and/or English

This programme is designed for students who are passionate about theatre, performing arts and culture. The courses cover both the theory and practice of theatre in its historical and contemporary forms. Students are introduced to the relationship between theatre and interculturalism and deepen their knowledge of intercultural aesthetics, the different forms and concepts of theatre, theatre theory and cultural management. Students take script and writing workshops led by directors and playwrights and plan, coordinate and implement their own artistic projects.

CAREERS: employment opportunities in the theatre, cultural agencies or institutions, public relations, cultural management and organisation, project management and festival organisation, theatre review and media relations, or further studies at PhD level.

mti.uni.lu

Humanities

Trinationaler Master in Literatur-, Kultur- und Sprachgeschichte des deutschsprachigen Raums

in collaboration with:

4 semesters | 120 ECTS

A programme jointly organised by the University of Luxembourg, the University of Lorraine and Saarland University

A curriculum certified by the Franco-German University

TEACHING LANGUAGE: German, some optional courses are taught in French

This programme focuses on German language, literature and culture from their beginnings to the present day. Students design their own curriculum according to their interests by choosing from different courses offered at the three partner universities. At the University of Luxembourg, the focus is on culture and media studies and multilingualism. Students familiarise themselves with the different learning and research cultures of the three countries and acquire intercultural skills, which are highly valued in today's working environment. Depending on the number of credits acquired at each of the three universities, students obtain a tri-national, bi-national or national diploma.

CAREERS: employment opportunities in publishing, media and communications, cultural institutions, library and archive work, the lifelong learning sector, or further studies at PhD level.

trinationaler-master-germanistik.eu

Humanities

Master Transnational German Studies

in collaboration with:

4 semesters | 120 ECTS

Students stay at a different European university each semester

"Employability" module including an internship or a practice seminar and workshops with industry professionals

Optional languages courses in Italian, Luxembourgish and Portuguese

TEACHING LANGUAGES: German, some courses are taught in English

This joint programme focuses on German language, literature and culture with a specialisation in the Middle Ages and the Early-Modern period. Taught at four different universities including Universidade do Porto (semester 1), University of Luxembourg (semester 2), Johannes Gutenberg-Universität Mainz (semester 3) and Università degli Studi di Palermo (semester 4), the programme offers a specific pathway in Literary Studies, which enables students to understand the historical and cultural factors influencing modern European society.

The curriculum integrates a broad variety of courses encouraging students to continuously develop their disciplinary and non-disciplinary skills. A mentoring programme, which runs through all 4 semesters provides students the opportunity to exchange with experienced industry professionals.

CAREERS: employment opportunities in cultural institutions and cultural management, public relations and journalism, archives and libraries or further studies at PhD level.

mtg.uni.lu
transnationalgermanstudies.eu

Social Sciences

**Master en Études
Parlementaires**
Master in Legislative Studies

in collaboration with:

4 semesters | 120 ECTS

A Joint Master degree in legislative studies

An internship during semester 4

**A unique collaboration with the Assemblée
Parlementaire de la Francophonie and 88
national and regional parliaments (Africa,
Americas, Asia, Europe and Middle East)**

TEACHING LANGUAGES: French, English

The programme provides students with an in-depth knowledge about contemporary legislative bodies, the legislative and political decision-making processes, and the political electoral processes. The curriculum combines courses in political science, political communication, public policies, ethics, sociology, law and geography. The multidisciplinary approach prepares students to meet the societal, ethical, cultural and economic challenges legislators and public institutions are facing.

In the first year, students pursue their studies in one of the specialisations offered at the four partner universities: legislative studies and comparative, European politics (Université du Luxembourg), legislative and electoral law (Aix-Marseille Université,

France), Parliaments and Internationalisation (Université de Babeş-Bolyai, Romania), American legislative studies & public administration and politics (Université Laval, Canada). The second year (MII) is taught at the University of Luxembourg and is designed to deepen the students' understanding of legislative studies.

CAREERS: employment in the public sector, European and international institutions, lobbying associations and consultancies, ONGs, think-tanks and public affairs consultancies, scientific and private evaluation offices or further studies at a PhD level.

mep.uni.lu

Social Sciences

Master in European Governance

4 semesters | 120 ECTS

A strong core of teaching on European politics and policy

A broader interdisciplinary curriculum on European integration

A series of practitioner-led seminars

TEACHING LANGUAGES:

English (French optional)

This programme trains experts in European public policy by providing advanced-level training in political science. Students gain a unique insight into the processes of European decision-making and explore the historical development of European integration and the foundations of the EU legal system. They choose from a range of policy area seminars from different sectors including social, economic, environmental and external policies of the European Union. Students also develop transferable skills including data analysis, report-writing and oral presentation skills.

CAREERS: employment opportunities in the public and private sector in the area of European public policy, in international consulting firms, the European institutions or national governance bodies or further studies at PhD level.

meg.uni.lu

Social Sciences and Education

Master in Management und Coaching im Bildungs- und Sozialwesen

6 semesters | 120 ECTS

A part-time lifelong learning study programme

Courses generally take place on Friday afternoons (some sessions on Thursday evenings or Saturday mornings)

Admission requirements include three years of work experience

TEACHING LANGUAGES: German, French (the majority of the courses are taught in German)

This programme is specially designed for professionals working in the socio-educational sector and whose responsibilities include management or coaching tasks. The programme combines theoretical knowledge in sociology, psychology, educational science and economics with students' professional experience. Courses cover the theoretical and empirical issues of organisations, educational systems, social welfare systems, professional roles, learning and communication. The students develop leadership, management and coaching skills and learn to critically self-reflect on their work projects.

CAREERS: employment opportunities as head-teachers, teachers or tutors at primary or secondary schools, school inspectors, experts in educational and social administration, managers and consultants for governmental, semi-governmental or non-governmental organisations and project managers.

macbs.uni.lu

Social Sciences and Education

Master in Social Sciences and Educational Sciences

4 semesters | 120 ECTS

A research-based study programme with student participation in on-going research projects

Country comparisons and site visits of international organisations with insider views on educational policymaking and programming

Seminar-based teaching with intensive mentoring (Master thesis)

TEACHING LANGUAGE: English

This programme is designed for students with strong interests in theory and methods in one or more of the social sciences, with key thematic foci including social inequality and comparing education systems. Students are enabled to understand the development of education and social policies, schooling and social services across time, and to compare across cases. Students learn to analyse and solve problems by using the approaches and methodologies of a variety of academic disciplines, including sociology, educational science and political science.

CAREERS: employment opportunities in (inter) national educational organisations, research institutes, or administration or further studies at PhD level.

How to discover the University?

- The **Open Day** in spring allows you to meet many actors of University life and to inform yourself about the studies.
- The **Student Admission Office (SEVE)** at the University. All year long this service welcomes you from 13.30 to 16.00 from Monday to Friday (without appointment) for any questions about the admission procedure.
- During **Orientation and Information Fairs** throughout the year in Luxembourg (during November at Luxexpo- The Box in Kirchberg) and in Europe (Paris, Strasbourg, Metz, Brussels, Liège, Saarbrücken and Trier).

A photograph of a modern building facade with a grid of white rectangular panels. The building is long and stretches into the distance. In the foreground, there is a paved walkway and a small pond with green plants. A person is walking on the path. The sky is bright and clear.

University of Luxembourg

Multilingual. Personalised. Connected.

Studying at the University of Luxembourg means...

Being multilingual

The University of Luxembourg is a multilingual university. Most of our programmes are bilingual (French-English or French-German), even trilingual or taught entirely in English. Campus life is as multilingual and multicultural as Luxembourg itself since our students come here from all over the world.

Having an open mind

We strongly encourage student mobility and all our Bachelor students must spend one semester abroad. The University of Luxembourg is an active partner in the European ERASMUS+ Programme and has signed a series of agreements with partner universities in the United States, Australia, China, Korea, Japan, Laos, Thailand, India, Uruguay, Brazil, Russia, Turkey and Canada. Many exchange opportunities are also on offer for Master students and PhD candidates. Language skills and a willingness to be open-minded are rewarded with degree qualifications which give our students undisputed advantages in the global labour market.

Being well-connected in the world of work

As a student, you will be able to take advantage of the excellent links to the financial centre, employers, industry and public institutions in Luxembourg. Over 860 lecturers from the business world, the social and education sector, and national and European institutions teach in our three faculties. A large number of our study programmes give you the option of a work placement as a way of gaining practical experience.

Having a unique university experience

The University of Luxembourg operates on a human scale. Here, students are the top priority. Much of our teaching takes place in small classes or seminars. You will receive personal supervision and individual mentoring. Our students are encouraged to take an active part in lectures, classroom debates and discussions.

Our student support services

The University of Luxembourg offers a range of services to provide you with support and advice throughout your time at the university. SEVE, the Student Department (*Service des Études et de la Vie Étudiante*), is there to help you with all the administrative formalities from the moment you enrol until graduation.

...enrolling

You can enrol with the university via our website. The Admissions Department is responsible for issuing the various administrative documents required for enrolment: student card, certificates, etc.

...finding a place to live

The University of Luxembourg has 37 student halls, with a total of 1,122 rooms and studio apartments, located mostly in Esch-sur-Alzette and Luxembourg City, which offer students excellent housing and a great environment to work and meet other students.

...helping you prepare your mobility semester

Spending an exchange semester in another country is compulsory for all Bachelor students at the University of Luxembourg. We also offer exchange possibilities to Master students and PhD candidates. Our Mobility Department

will give you information about the different programmes available and help walk you through the administrative formalities.

...getting your career on track

The University Career Centre provides counselling services including individual consultation, skills assessment sessions and workshops to assist you with your job applications. The University organises the annual Unicareers.lu recruitment fair for students and young professionals.

...learning a new language

The Language Centre offers academic and vocational courses as well as general language courses in French, German, English and Luxembourgish for students and university staff.

...studying in the best possible conditions

A qualified psychologist offers counselling and support. Sessions are confidential and free of charge.

uni.lu/students

Student life at the University of Luxembourg

Campus Sport

Student life is not just about studying – it's also a great opportunity to get involved in sports. Campus Sport organises over 20 different sports activities run by professional coaches.

Campus Art

Art workshops are organised free of charge for the whole university community.

Student life

Joining a student association is a great way to meet new people. At the University of Luxembourg, several student associations represent the interests of the student community. The student lounge is the place to meet, hang out and participate in a variety of activities. The Office of Student Life organises a range of different events, in particular the Welcome Day, Garden Party, Masquerade Party and Christmas Party.

Espace cultures

espace cultures organises and coordinates cultural events and activities, including the University Choir, the University Chamber Music Ensemble, the student theatre group EduDrame, the dance group Dance Cluster and a mime workshop.

Belval Campus

Belval Campus

Belval Campus is the University of Luxembourg's main site. Close to Esch-sur-Alzette, Luxembourg's second largest city, Belval combines research with teaching and urban life with leisure activities. Once home to Luxembourg's largest steelworks, this site now features research and learning facilities, the university library and learning centre as well as student accommodation. The campus is located at the centre of an urban district and has excellent connection to public transportation.

Limpertsberg Campus

Limpertsberg Campus is located in a residential area close to the centre of Luxembourg City and just a few minutes from Kirchberg, the capital's business district.

Kirchberg Campus

Kirchberg Campus is right at the heart of Luxembourg City's business district, with the country's international banking and financial centre and all the European institutions close by. Just a stone's throw from the university campus are the Kirchberg shopping centre, the large sports and aquatic centre known as the Coque and the Grand Duke Jean Museum of Modern Art (Mudam), as well as the Philharmonie Luxembourg concert hall. All LL.M. courses are taught at the Weicker building in Kirchberg.

Limpertsberg Campus

Kirchberg Campus

Some key facts about Luxembourg

In the heart of Europe,
2hrs from Paris,
Brussels and
London

Luxembourg City
is listed as a **UNESCO**
World Heritage

Headquarters of
many European
institutions

A cosmopolitan country where people from many
different nationalities
live side by side

Luxembourg City is the safest city in the world

(according to a study carried out by Mercer Consultancy, March 2019)

A **dynamic, competitive** and **open economy**
with an **attractive labour market**

Living in Luxembourg is a unique multilingual and multicultural experience

Luxembourg has three official languages and is home to over 170 nationalities. Of its 613 894 inhabitants, over 47% come from outside Luxembourg. The national language is Luxembourgish; however, most people speak at least French, German or English. If you would like to learn Luxembourgish, you can take classes at the university's Language Centre. Cultural diversity is a daily reality in Luxembourg.

The fortifications of the Old City of Luxembourg and its ancient quarters have been part of the UNESCO Cultural World Heritage since 1994. Luxembourg boasts a vibrant cultural and art scene and has a wide range of museums, theatres, art galleries and music venues. There is a vibrant nightlife, especially in Luxembourg City (114 000 inhabitants) and around Belval Campus. You will find chic bars alongside traditional pubs and hip cafés. In the

summer, the streets and terraces come alive with people.

Luxembourg has an amazingly beautiful countryside. Almost one third of the country is covered by forest and you can hike and bike your way through 600 km of cycling routes and hiking trails. Luxembourg is a real heaven for outdoor enthusiasts.

Luxembourg's rich cultural heritage includes several castles and charming villages, as well as the historical districts and fortifications in the country's capital.
